March 7-22 in St. Paul's Bay, Malta
Malta is a very diverse country where their history is still evident today and dates back as far as the Neolithic period. Many temples are scattered around the island and "Ggantija" is said to be one of the oldest surviving, free-standing monuments in the world, predating Stonehenge by around 1,000 years! With their strategic position in the Med, the Maltese islands have played a crucial role historically and have set the scenes for the wars between Rome and Carthage, the Second World War, the Cold War, and the period of the Crusades which left the biggest impression. When the Knights Hospitaller of St John were driven out of Rhodes and handed Malta by Charles V, they bequeathed palaces, forts, cathedrals, an abundance of art and, of course, the Maltese Cross. Malta is also a very exciting destination where you can enjoy boat rentals and plenty of beach activities. For the movie buffs, "The Da Vinci Code" and "Troy" along with many other movies were filmed here. It was also the location for the series "Game of Thrones". Although your time is free to discover Malta on your own, your Travac Tours Director will assist you with booking optional tours and activities throughout your stay.
